

Asbin Khanal

Kathmandu, Bagmati, Nepal | asbin.khanal@gmail.com | www.linkedin.com/in/asbin-khanal

Professional Summary

A results-oriented professional with a bachelor's degree in Biotechnology and extensive experience in leadership, strategic planning, and organisational development. As an AIESECer, I specialise in managing cross-functional teams, driving impactful initiatives, and fostering sustainable growth. Adept at financial management, project execution, and youth empowerment, I bring a unique combination of technical expertise and leadership acumen to deliver measurable outcomes and value-driven success.

Key Skills

- **Biotechnology:** Research and Development, Dry Lab Techniques, Wet Lab Techniques
- **Leadership & Management:** Strategic Planning, Team Building, People Management
- **Project Management:** Event Coordination, Logistics, Stakeholder Engagement
- **Financial Expertise:** Budgeting, Risk Management, Financial Reporting
- **Technical Skills:** Adobe Creative Suite, Graphic Design, Video Editing, Microsoft Office
- **Languages:** English (*Professional*), Nepali (*Native*), Hindi (*Basic*)

Laboratory Skills

- **Molecular Biology:** Polymerase Chain Reaction(PCR), Gel Electrophoresis, Recombinant DNA(rDNA) techniques
 - **Microbiology:** Antimicrobial assays, bacterial isolation and characterizations
 - **Animal Cell Culture:** Cell Viability assays, MTT assays
 - **Biochemistry:** Flame Photometer, Spectrophotometry, Metabolite quantification
 - **Bioinformatics:** Python, Molecular Docking Tools and techniques, Phylogenetics
 - **Plant Tissue Culture:** Micropropagation techniques, Meristem culture
-

Professional Experience

Country Director

AIESEC in Thailand

July 2025 - November 2025

- Led the organisation of 200+ volunteers, in an organization in Thailand.
- Promoted Youth Leadership and programs in Thailand.
- Responsible for handling 7 departments and functions as a director.

Country Director

AIESEC in Nepal

July 2024 - July 2025

- Led a national team of 200 volunteers, increasing membership engagement and facilitating over 190* exchange opportunities.
- Developed leadership programs impacting youths, and members, emphasizing integrity, diversity, and sustainability.

National Head

Finance and Legalities | AIESEC in Nepal

January 2024 - July 2024

- Managed financial sustainability and compliance for a nationwide youth organization.
- Oversaw budgeting, financial reporting, and risk management, enhancing transparency and fiscal responsibility.

Local President

AIESEC in Kathmandu University | AIESEC in Nepal

January 2023 - February 2024

- Led a 54-member team across six departments, driving international exchange opportunities and youth development programs.
- Led events contributing to Sustainable Development Goals (SDGs), empowering young leaders and fostering global engagement.

Local Head

Finance and Legalities | AIESEC in Kathmandu University

February 2022 - January 2023

- Achieved financial sustainability for AIESEC in Kathmandu University through robust financial controls, and streamlined legal documentation processes, boosting organizational compliance.

Event Manager

World's Largest Lesson (WLL) | AIESEC in Nepal

February 2022 - March 2022

- Led the successful execution of the event, a global UNICEF initiative for student engagement in SDGs (SDG 13: Climate Action), for AIESEC in Nepal.
- Coordinated logistics, managed a team of 200+ facilitators, and ensured a smooth learning experience for 3,000+ students across 25+ schools.

Team Leader

Outgoing Global Talent | AIESEC in Kathmandu University

February 2021 - January 2022

- Mentored a team of three members, fostering their professional growth through capacity-building programs.
- Focused on lead nurturing, sales, and international relations with global AIESEC entities.

Education

Undergraduate Degree

Kathmandu University, **Btech. in Biotechnology**

2019 – 2023

Graduated with a Bachelor's degree in Biotechnology, achieving a CGPA of 3.29. Acquired comprehensive knowledge in biotechnology research, applications, methodologies and laboratory techniques.

Higher Secondary Education Examination

Trinity International College and HSS, **(+2) in Science**

2016 – 2018

Completed higher secondary education in Science (Biology), with a CGPA of 2.98. Demonstrated strong analytical skills, and scientific principles, laying the groundwork for advanced studies.

School Leaving Certificate (SLC)

Reliance Educational Academy

2011 – 2018

Achieved school-top academic performance in secondary education with a GPA of 3.80. A sound academic record and active participation in extracurricular activities throughout the phase, for academic and personal growth.

Internship

Student Intern

Shikhar Biotech

February 2024 – March 2024

- Applied biotechnology skills to antibody production at Nepal's first antibody company.
 - Gained hands-on experience in research and development in an industrial setting.
-

Academic Projects

Determination of Heavy and Light Metals in Noodles Sold in Nepal's Market

Conducted an academic project on the determination of heavy and light metals in noodles sold in Nepal's Market, to gain proficiency in sample handling and testing methodologies and data interpretation of various chemical parameters.

Proficiency gained: UV Spectroscopy, Flame Photometry, Atomic Absorption Spectroscopy

Molecular docking analysis on 21 therapeutic ligands of *Ocimum sanctum* and their prospects in drug design for Herpes Simplex Virus

Performed the in silico analysis utilizing computational tools to evaluate potential interactions and effectiveness, contributing to the understanding of alternative therapeutic options.

Proficiency gained: Molecular Docking, AutoDock Vina, Discovery Studio, SwissADME, Swiss PDB Viewer

Generation of a Short Tandem Repeat Profile Targeting Eight CODIS Loci

Conducted a Bachelor's thesis, focusing on generation of short Tandem Repeat Profile targeting eight CODIS Loci in different individuals.

Proficiency gained: Gel Electrophoresis, PCR, DNA Extraction, DNA Fingerprinting

Evaluation of Antimicrobial Activities of Secondary Metabolites in *Glycyrrhiza glabra* via Computational and Biomolecular Methods

Currently engaged in a research project that employs both dry and wet lab techniques to validate and explore the antimicrobial properties of secondary metabolites. The project involves utilizing molecular docking simulations, and bioinformatics tools along with microbiological assays to analyze the antimicrobial potential of *G. glabra*.

Proficiency gained: Molecular Docking, Microbiological Assay (Antimicrobial Assay), Phytochemical Screening, Antioxidant Assay

Projects Link: bit.ly/asbin_records

Achievements

- Successfully organized the “World’s Largest Lesson,” impacting thousands of students.
 - Designed and launched “Heredity – Generation I,” the first departmental magazine for Biotechnology.
 - Recognized for driving financial and operational excellence during leadership roles.
-

Volunteer Work

District Vice President

Leo District Council, 325 F

July 2024 - June 2023

- Spearheaded a team of 20+ club presidents, ensuring effective coordination, training, and support for the district's initiatives and activities.
- Developed and implemented strategies to achieve district goals, enhancing membership engagement, project impact, and community service.

District Treasurer

Leo District Council, 325 F

July 2022 - June 2023

- Managed finances for LEO District Council 235 F (District Council of 20+ LEO Clubs) as District Treasurer.
- Developed & presented annual budgets, ensuring fiscal responsibility; effective management, tracking, and recording.

Region Coordinator

Leo District Council, 325 F

June 2019 - July 2020

- Led Region 8's LEO Clubs (Lions Clubs Intl.) as Regional Coordinator, providing direction & advocating for 5 clubs within District 325 A2.

Charter President

Leo Club of Okhaldhunga

December 2018 - July 2020

- Empowered youth through community service by chartering and leading a Leo Club (Lions Clubs International), providing leadership and service opportunities for young people.

Vice President

Kathmandu University Biotechnology Creatives

May 2021 - May 2022

- Led Kathmandu University Biotechnology Creatives (KUBiC), organizing diverse events including Nepal's largest on-site biotech conference (Biotech Meet) & organized multiple virtual engagement events during the COVID-19 lockdown.

Senior Graphic Designer

Kathmandu University Biotechnology Creatives

August 2020 - May 2021

- Designed and Launched the Department of Biotechnology's first departmental magazine ("Heredity-Generation I") as an editorial board member (Graphic Designer).
- Contributed creative content (magazine & departmental club events) & graphic design skills.
